Writers Club Press. Paperback. Book Condition: New. Paperback. 456 pages. Dimensions: 9.0in. x 6.1in. x 1.1in. Power! exposes the foreign manipulation of U. S. financial markets, which caused us to create the anti-nuke movement and covertly collapse our own nuclear energy program! The United States announced plans in 1965 to build one thousand nuclear power plants. Americans praised the clean, efficient, and economical energy. Fifteen years and only 90 plants later, the U. S. nuclear energy program was effectively aborted. But nuclear power programs still thrive throughout Europe and Asia. Why not in the United States! In the early 1970s, an American engineer, Duncan Hayward, uncovered a foreign plot to take control of the electric power industry in the United States and thereby crush the U. S. economy. Foreign cartels were buying huge chunks of the U. S. nuclear power industry through an ingenious computerized scheme. Hayward soon realized that the only way to stop them was to remove their primary target, the nuclear power industry itself. Haywards plan, approved at the highest government levels, would systematically destroy the nuclear industry. Politicians, celebrities, and news media were used to convey messages of fear and environmental disaster to the general public. Hayward and his supporters executed the odious anti-nuke plan and the U. S. nuclear energy program collapsed, taking with it the foreign cartels. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
