Ms. Bone ends her odyssey elegantly, discovering mushrooms may be the most important - and most hopeful - ingredient of life on Earth." - Wall Street Journal "One of the most beguiling books I've read this year. Each and every fungus contains properties that, as described by Bone, sound almost magical. Delicious, surprising and dizzyingly informative book." - New York Times Book Review "Earthy and honest. with good humor and clear writing." - The Denver Post "Mycophilia. will delight many readers. [Bone] makes a charming and witty tour guide through the vast world of fungi.
