The centrality of reliable and comparable information for financial stability and for the ability of investors to assess risk and allocate resources to different investment opportunities has been painfully demonstrated by recent events. In marking UNCTADAEs Intergovernmental working group of experts on international standards of Accounting and Reporting (ISAR)AEs Twenty-fifth anniversary, the UNCTAD secretariat organized a high-level segment that featured prominent speakers, including ministers, discussing the positive contribution of international accounting and reporting standards and codes to financial stability and economic growth. This publication contains ISARAEs deliberations at its twenty- fifth session, and it will provide policymakers, regulators, standard to setters, boards of directors, researchers and other readers with insights into some of the timely issues on corporate reporting.
