Most of the students are not prepared to take this decision. They just decide their career on the advices from their parents, relatives, neighbours and other uncles and aunties. They spend around 15 years in school but do not give a single day to think about what they are going to do after school. If few of them do so, they do not do it in a proper way. The decision goes well if the career path is properly selected according to your skills, interests, personality and aptitude level. The decision, if taken wrong, results in dis-satisfaction, failures and lifetime frustration. The decision, if taken wrong, cant be reversed in all your life. This book will help you decide a joyful and successful career for you. This book will encourage you to explore your skills and interests, and will provide you a big list of career options for choosing a career of your choice. This book is a must read for all students.
