Not illustrated. 1894 Excerpt: .be the gauge of the track distant from the crotch frog, find with a tape-line the point between the gauge lines of these two outer rails just lined, where the distance is equal to twice the gauge; at this point place the point of the crotch frog. Or, having lined the outside rails, as just indicated, use a frog-board, moving it to the point where it will gauge neatly with both outside rails, with perhaps slight adjusting of their line, and at this point place the point of the crotch frog. But the easiest way is to take from Tables Nos. 26 and 27 the distance between the main and the crotch frog, and, measuring along the main rail from A to B, in Diagrams Nos. 13 and 14, place the frog accordingly. The following tables give the necessary distances for finding the position of the...
