

Annals of the Astronomical Observatory of Harvard College Volume 43

By Anonymous

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1901 edition. Excerpt: .precipitation, thunder and lightning, optical phenomena, etc., are recorded, so far as possible, and the degree of visibility of mountains to the westward is observed twice a day. Continuous automatic records are maintained of the following elements: atmospheric pressure (on daily, weekly, and monthly sheets), air-temperature and relative humidity, winddirection and velocity (distance travelled and rate), precipitation, bright sunshine (daily and weekly records), and cloudiness at night in the vicinity of the pole star. The two secondary stations are situated below the Observatory and north-northwest of it: one at the base of Great Blue Hill, at the residence of Mr. Clayton; and the other, which is managed by Mrs. H. M. Dean, in the Neponset Valley. In May, 1902, the latter station was removed from the land of the Metropolitan Park, on the bank of the Neponset River, to a new site, about a...

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.
